EDUCATION

Rajnagar business & technical college
HSC - 1st year
2023

PROFILE

Seeking to leverage my extensive knowledge and expertise in full-stack web development to create innovative, efficient, and user-friendly web applications that drive business growth and enhance user experiences.

PROJECTS

PaintingHut: https://painting-hut.netlify.app

FULL-STACK WEB APPLICATION FOR BOOKING PAINTING SERVICES AND ORDERING, WITH ROLE-BASED AUTHENTICATION.

- Admin, super_admin, customer, and painter access controls for enhanced security.
- Seamless user experience for service booking and order placement.
- Efficient cart management to simplify service selection and checkout.

Frontend-Code: https://github.com/Jasimahmedq2/painting-frontend

Backend-Code: **https://github.com/Jasimahmedq2/painting-backend**

NextGen: https://nextgen-social-media.netlify.app/

NEXTGEN - A SOCIAL MEDIA PLATFORM WITH USER-FRIENDLY FEATURES, INCLUDING FOLLOW, UNFOLLOW, LIKE, COMMENT, AND POST FUNCTIONALITIES, ALONG WITH ROBUST AUTHENTICATION AND AUTHORIZATION MECHANISMS.

- Users can seamlessly connect through follow, unfollow, like, and comment actions, fostering engagement and user interactions.
- Implemented strong user authentication to safeguard user data and privacy.

SoloNature: https://fancy-pixie-9f1732.netlify.app/

MOBILE-EXCLUSIVE E-COMMERCE WEBSITE, SOLONATURE, FEATURING PAYMENT METHODS AND A COUPON CODE SYSTEM.

- Tailored shopping experience for mobile users, ensuring smooth navigation and accessibility.
- Offer discounts and promotions to customers through a user-friendly coupon system, enhancing user engagement and satisfaction.
